

AMENDMENTS TO THE SPECIFICATION:

Delete the originally filed Abstract of the Disclosure in its entirety and insert therefor:

A method for treating objects with at least one treatment agent in a household device includes the step of operating a first part of an identification system to identify data of a second part of the identification system, the data of the second part of the identification system comprising information on a dosing device operable to dose the treatment agent, and the data of the second part of the identification system being associated with a packaging for the dosing device. The method also includes the further step of adapting a treatment of objects by the household device or a dosing of the treatment agent based upon the identified data.
